

Personal description

I am very passionate about the things I like and care for such as my family, my job and sports. I consider myself loyal, responsible and time keeping. I enjoy outdoor activities and learning new cultures. I find the story behind people and things fascinating. It's a way of learning and growing as a person.

I have been described by people as funny, friendly, spontaneous and always ready to help with a noble heart.

I love sports I think it's very important in someone's journey of life. My main sports are Football, and Basketball. Anything with a ball I will play it. I really enjoy cycling as it is the time of the day that I can have for myself and helps me meditate.

I can enjoy nights by watching movies, telling stories as well as dancing on nights out. I enjoy dancing too as it's a way to express myself and deepening on the mood. I can start with heavy metal and end with a classic Whitney Houston song. I am very emotional sometimes if I watch a movie with a real story behind it and I will cry. I enjoy action movies but also a chick flick that I think is the best film ever is "Love Actually"

My family are very, very important for me as they are the rock behind my achievements in life. I enjoy spending time with them and I have also learnt that over the years, to be family you don't have to be blood related. "Family is where life begins and Love never ends"

My earliest memory is of me spending quality time with my grandma playing with mud making blocks at 3 years old. Also I remember being with my mother and playing all kind of sports. My mother is very influential in my life and is my hero.

I love school. I did get some hard time when my first language was not English but it helped me to be better every day.

My ideal career will be playing Football. Other than that I like to be helpful to people and am a very strong believer in "don't do something that you don't want to be done to you".

My ideal holiday would be to travel all over Asia because I find their history and landscapes amazing. I would also do a safari with wild animals that are majestic.

I like dancing therefore I am into any type of music (almost everything). I heard I am very good at Salsa. Most things that I have learnt in life have been self-taught or through my mother.

I love dogs, although I don't have my own. I enjoy Chinese food but also South American food. I am the kind of person that will try anything edible because life is too short.

My aspiration in life is living a legacy of joy and happiness. I believe that you can achieve anything in life if you put your heart and mind to it. Failing is a process to become a winner. If you are stuck and can't find the answer just accept it and ask for help. Asking for help is not a weakness. Always have an open mind that the experience of life will help you one day.

Good will message

I really wish and hope that you can get the best out of life. Life is the greatest gift we have. Through life we can do almost anything to engrave memories that will last a lifetime. Enjoy life to the best of your abilities. Time is something we will never get back so be grateful every day. Nothing is impossible if you set your mind and heart to it. There is no such thing as the perfect parents. Like you, they learn every day they will make mistakes so you could both learn together and achieve things quicker as a family. I know if I would have listened to my parents it would have saved me a lot of complicated times. Our parents are our first therapists. Doctors, teachers and everyone and all that they do is with love and they want the best. Treasure the moments you have with them and be grateful as one day you will be one and you will miss them. But what keeps you going is those memories.

Life doesn't give you hard time. It's the surroundings so surround your life with good people and your hard times will be much easier to handle. The reason we fall is to raise again and learn that we can be better every day.

The words I imprinted in me is be humble, grateful and enjoy life because it's a beautiful ride if you let it be. When you think that nothing works out for you, there is nothing wrong to ask for help. It's not a weakness. On the contrary it can become your greatest strength. Life is too short to not to enjoy it.
