

I have two occupations - MANAGEMENT and Woodworking,  
But found myself in poetry and mixology.  
I like to get new experience. I was at TV-shows, modeling  
and read poetry from the scene.

The best type of rest is to hide in woods or  
mountains with a good music, friends and a bottle  
of good whisky.

Good music - rock music.

Listening such bands as Linkin PARK, Bon Jovi, Scorpions,  
Rag'n' Bone man, Queen etc.

Living in immigracy, I always look at people around  
me, try to discover them. Understanding of reasons  
why people doing smth helps me to find out who  
am I.

All my family lives around the world, so I feel  
a constant loneliness.

The only important thing in my life is to help  
others same as me and leave smth to new  
generations.

As I always trying to help, I helped your parents to  
born you. I hope this new life will be full of hope and  
happiness, love and great accomplishments.  
Remember, that you made of love between your parents  
and my love to world and life. You'll always be loved,  
and don't forget to give yours to others.
