I have brown eyes and black hair. I am from Hong Kong.
My childhood was great. My parents did the best they could have done bringing up me. I lived with my grandmother, father, mother, elder brother and younger sister.
I am a person with logical thinking. I was good at Mathematics and my hobbies were playing chess, table tennis and hiking at school.
I studied computing at university and I am a programmer. I like my job. I feel fulfilled when I completed a task.
I have no religion, but I think everyone should treat people well.
I like traveling because I like adventures. It inspires me to see, taste and try new things.
I like walking, drawing, listening to music, whistling and watching movies in my leisure time.
Family is the most important thing to me in life.
