Donor Pen Sketch

Donor 1804

Hi, I am glad to have the opportunity to describe a little bit myself.

I grew up in a normal family, I always received all the necessary affection and support from my parents. I am the eldest of four siblings and have always had the responsibility to set a good example and take care of them especially after my father's death [REDACTED].

My family was very Christian even though I am now an atheist, but I believe that the good teachings that have been transmitted to me have helped me to become the strong, respectful and disciplined person I am today.

I lived in a very small town in [REDACTED] Italy, [REDACTED]. My school grades were average, but I've always been curious about learning new things, developing knowledge about some subject like physics, chemistry, agronomy. I didn't like subject like history, languages and geography. I really enjoyed reading informational books and didn't spend much time listening music.

At the moment I am writing [REDACTED] I am studying in order to become a web developer. Even in the high school I graduated in Agricultural I change a lot of jobs in the past few years.

First I worked for one year in a winery, after that I worked for two years as a metalworker in a factory and in the meantime I was studying to become a brewer, then I moved [REDACTED] in the middle of covid pandemic so it was a little bit hard and I changed many jobs until I found a job as a logistic manager but now I just quit in order to study.

In the past few years I have also tried to start different activities, as my main purpose was to improve my economic situation to be able to help others, so far it has not gone as I hoped, but there is always time to try again.

Donor Goodwill Message to Offspring

Donor 1804

I hope this message finds you well and that your life has been everything you could have imaged it to be. As your donor, I wanted to reach out and let you know that I have been thinking of you and hoping for the best for you. I made the decision to donate my sperm so that I could help other families have children, and I am so happy to have played a small part in bringing you into this world. My family is known for being healthy, problem-solving thinkers, and I am no exception. I have a strong passion for children, and I love spending time with them. If you ever want to reach out to me, I would be more than happy to talk and even meet up. I hope that you have had the chance to travel and see the world and that you continue to do so. Remember to always cherish your family and to make the most of your life. If you ever need anything, don't hesitate to reach out to me. Take care and all the best for your future.
