Donor Pen Sketch

Donor 1850

Hello and thanks for taking the time to read.

My name is [REDACTED] and maybe you're considering or have used my donation. Firstly I'd like to say the decision to donate was never taken lightly, and lots of careful consideration did go into this! The decision was never about me, it was always for what I thought was the greater good, and to help a family grow. A cousin of mine did go through a very tough time trying to conceive. Eventually she did from a donor in Spain. The child today is a happy, healthy 12 year old.

I was born in [REDACTED] England. I grew up with my Mother and father and 3 other siblings, me being the youngest. I was a very strong willed child! I knew what I wanted it seemed from a very young age. If I set my mind on something you could pretty much say I'd achieve it. A little spoiled by my parents, but they just loved me very much I guess.

From the age of 6 years old I took up dance lessons, ballet, tap, modern pretty much all styles. At the age of 16 I auditioned and gained a 3 year scholarship to a prestigious theatre school [REDACTED]. I moved to [REDACTED] alone [REDACTED] and trained to be a professional dancer. After graduation [REDACTED] I danced and performed [REDACTED] all over the world.

Its 2024 and I'm in the process of changing career. I went back to college 2 years ago. I will hopefully gain qualifications in counselling. Along side this study I teach dance to kids [REDACTED] which is a lot of fun.

I'm 5'10 in height, I have a very dry sense of humour! I'm naturally introverted, but with people I know well I can be the life of the party. I like to think I stand for doing the right thing. Treat people how I like to be treated, and hope for the best for everyone. I believe in live and let live. I'm not religious person but I'm very spiritual. I didn't really enjoy my school experience [REDACTED]! I was naturally good at drawing, art, music and drama. I enjoy most genre in music. I love to spend lots of time alone. I'm currently single which is a personal choice also. My father passed away [REDACTED] years ago, my mother is my best friend and I see her lots. She still lives in [REDACTED] England as do my siblings with their families.

I'll close now, here's hoping I've given you some information about myself you find interesting. I wish you every happiness and success with all you're decisions and happiness.

Kind regards,

[REDACTED]

Donor Goodwill Message to Offspring

Donor 1850

I thought long and hard about becoming a donor. After some careful consideration I came to the realisation there was nothing I wanted more. I witnessed a cousin go through a very tough time trying to conceive, this was also another deciding factor why I chose to go through with the process. I believe all people who have the personal need to have children should have the opportunity. I'm thrilled to have been part of this process. From the moment I decided to do this, like anything I do in life, I gave my full commitment and have never doubted for a second if it was the right thing to do. I know 100 percent it is and was.

If you have been born through sperm I donated I just wanted to say hi, I hope you are happy and healthy. You are now at the age of making life decisions and maybe you are reading this. I really do wish you all the best in life and I hope you are achieving all your goals and having fun while doing it. I believe wholeheartedly "what's for you will never pass you by" "what's meant to be will be" if you are in doubt as to whether you should contact me, may that doubt end now as I'd be really very happy to meet you!
